

Utility Space

Nel catalogo Utility la progettualità sistemica di Golf esprime al massimo le sue potenzialità. I moduli contenitivi diventano architettura e aiutano a disegnare nuovi spazi. Per organizzare, per ottimizzare, per fare ordine. Anche negli ambienti spesso dimenticati, come ingressi, lavanderie e corridoi.

In the Utility catalogue, Golf expresses the height of its systemic design potential. The storage modules become architecture and help design new spaces. To organise, to optimise, to reorder. Even in spaces that are often forgotten such as hallways, laundries and corridors.

Color Pop-Up. Il colore progetta.

Colori neutri, senza tempo e materici, sono ideali per essere integrati con versatilità nell'architettura di tutta la casa.

Neutral, timeless and textured colours can be easily incorporated into the architecture of any home.

La palette cromatica di Golf è cresciuta. Negli spazi di servizio il colore assume un essenziale ruolo dinamico: agisce aggiungendo tridimensionalità e fa apparire anche un ambiente dalle dimensioni ridotte molto più ampio, agevole e funzionale. Il colore può essere utilizzato per sottolineare intere nicchie oppure dettagli, può introdurre contrasti o ricreare atmosfere con tinte naturali. Parola d'ordine: valorizzare.

Colour Pop-Up. Colour designs. Golf's colour palette has expanded. In utility rooms, colour plays an important and dynamic role: it adds three-dimensionality to make even the smallest space seem larger, more practical and functional. Colour can be used to highlight large niches or the smallest details, introduce contrasts or recreate atmospheres with natural hues. Watchword: value-adding.

Systems to create spaces

Cinque differenti sistemi contenitivi per rispondere a qualsiasi esigenza. Ogni sistema può essere personalizzato secondo le proprie preferenze: oltre ai tagli su misura nelle tre dimensioni base, soluzioni custom come il taglio mansardato, le ante debordanti, il bloccaggio a soffitto e lo scasso variabile per pilastro, permettono ai sistemi di adattarsi allo spazio a disposizione e sfruttarlo al meglio.

Five different storage systems to meet any requirements. Every system can be tailored to your preferences: in addition to custom cuts in the three basic sizes, custom solutions such as the pitched roof cut, overlapping doors, ceiling-secured mechanisms and variable gaps for pillars, allow the systems to adapt to and make the most of the available space.

MOBILI DI SERVIZIO
SERVICE UNITS

Sistemi per creare spazi

Mobili di servizio

Service units

In the home, every space is important. Thanks to the new, deeper, accessory-rich service units, even utility rooms can be optimised in style. From the laundry, to the bathroom, and even the garage.

In casa, ogni spazio è importante. Con i nuovi mobili di servizio, più profondi e ricchi di accessori, è possibile ottimizzare con stile gli ambienti funzionali. Dalla lavanderia, al bagno, fino al garage.

Infinity bookshelf

Opening the doors to a world of new possibilities. Infinity transforms the bookshelf into an architectural element: its modules are designed to furnish new rooms, divide existing ones, and carve out private corners and islands of privacy.

Aprire le porte a un mondo di nuove inedite possibilità. Con Infinity la libreria diventa elemento architettonico: i suoi moduli sono pensati per allestire nuove stanze, separare gli ambienti, ricavare angoli dedicati o isole di privacy.

Rispetto dell'ambiente

Respect for the environment

UNI EN ISO 14001
Abbiamo certificato il nostro sistema di gestione ambientale in conformità agli standard alla norma UNI EN ISO 14001.

UNI EN ISO 14001
We have certified our environmental management system in compliance with standard UNI EN ISO 14001.

Economia circolare
Produciamo strutture e ante in nobilitato costituite da pannelli ecologici provenienti da fornitori certificati FSC® che utilizzano legno pre e post-consumo a cui viene data una seconda vita in virtù di un'economia circolare che si autoalimenta, senza andare a intaccare il nostro patrimonio forestale.

Circular economy
We produce melamine-faced structures and doors consisting of ecological panels produced by FSC® certified suppliers who use pre- and post-consumer wood, which is given a second life thanks to a self-perpetuating circular economy, without impacting our existing forests.

Materiali eco-friendly
Utilizziamo vetro e alluminio, riciclabili all'infinito per realizzare prodotti resistenti e di grande impatto estetico, e PET per superfici sicure che non rilasciano alcuna emissione tossica durante il ciclo di produzione e utilizzo.

Eco-friendly materials
We use glass and aluminium, infinitely recyclable materials to develop resistant products with a high visual impact, and PET for safe surfaces without toxic emissions either during production or use.

Diagnosi energetica
Monitoriamo costantemente i consumi totali e definiamo azioni di miglioramento sistemico per ottimizzare il nostro impatto energetico.

Energy diagnosis
We constantly monitor our total consumption and define systemic improvement actions to optimise our energy impact.

Imballaggi
Impieghiamo solo cartoni realizzati con carta riciclata, riducendo progressivamente l'uso della plastica per sostituirla completamente con materiali green.

Packaging
We use only boxes made of recycled paper, gradually reducing the use of plastic, to be completely replaced with eco-friendly materials.

Durabilità dei prodotti
Progettiamo prodotti con una maggiore vita utile per ridurre i rifiuti e offrire alti standard qualitativi.

Product durability
We design products that last longer to reduce waste and offer high quality standards.

Attitudine green-living
Abbiamo azzerato l'utilizzo della plastica negli uffici e nella produzione installando distributori d'acqua e recuperiamo tutti i rifiuti che produciamo con la nostra attività industriale.

Green-living attitude
We have eliminated the use of plastic in our offices and production department by installing water dispensers, and recover all the waste we produce through our industrial activities.

Logistica interna
Abbiamo ottimizzato tutte le movimentazioni all'interno dell'azienda per ridurre al minimo lo spreco di risorse energetiche e la produzione di CO₂.

Internal logistics
We have optimised all internal company logistics to reduce energy wastage and CO₂ production to a minimum.

Ottimizzazione degli spazi
Riduciamo lo spreco dei materiali da costruzione ottimizzando gli spazi con le nostre soluzioni di arredo che si adattano alle diverse architetture grazie alla loro ampia modularità e personalizzazione.

Space optimisation
We reduce building material waste by optimising spaces with our own furniture solutions, perfectly adaptable to different architectures thanks to their extensive modularity and customisation.

Innovazione
Siamo sempre alla ricerca di materiali e materie prime uniche che ci permettono di proporre sul mercato prodotti di alta qualità dal design distintivo. Abbiamo introdotto un sistema di intelligenza artificiale che pianifica la produzione, massimizza la produttività e facilita le operazioni di logistica e smistamento riducendo, in maniera significativa, gli sprechi.

Innovation
We are always on the lookout for unique and raw materials allowing us to offer the market high-quality products with a signature design. We have introduced an artificial intelligence system that plans production, maximizes productivity and facilitates logistics and sorting operations by reducing waste significantly.

Tecnologie green
Scegliamo materiali naturali al 100% resi straordinari da processi innovativi come la tecnologia di sinterizzazione che permette di creare pietre ceramiche senza l'utilizzo di colle e sostanze inquinanti. Abbiamo adottato l'utilizzo di vernici bio certificate Greenguard che garantiscono basse emissioni e una migliore qualità dell'aria negli ambienti domestici.

Green technologies
We chose 100% natural materials with an excellent performance from innovative processes such as sintering technology which allows ceramic stone to be created without using adhesives or polluting substances. We have adopted the use of Greenguard certified organic paint that ensure low emissions and better air quality in home environments.

Trasporto
Organizziamo le spedizioni ottimizzando gli spazi e i percorsi delle consegne per ridurre le emissioni di CO₂ sul pianeta.

Transport
We organise shipments by optimising space and delivery routes to reduce CO₂ emissions on the planet.

Progetti Speciali
Aderiamo al Furniture Pact, un progetto ideato dal Sustainability Lab di SDA Bocconi School of Management, che mira a supportare le aziende della filiera del legno-arredo verso l'adozione di modelli gestionali sempre più sostenibili.

Transport
We are joining the Furniture Pact, a project conceived by the Sustainability Lab of SDA Bocconi School of Management, which aims to support companies in the wood-furniture supply chain toward the adoption of increasingly sustainable management models.
